

Faculty and Staff Relations Committee

The Presidents of the IUPUI Staff Council and IUPUI Faculty Council serve as Co-Chairs for this committee. The committee met to reopen discussion on topics related to the TIME Timekeeping System and if staff on various campuses are harmonized in the use of synchronous and/or asynchronous reporting. It was determined that a new audit of the system would be requested of the Chancellor. Lateral move inequities for faculty and staff when moving laterally to new positions on campus. This will continue to be reviewed and while the VC for Finance has limited approval power (by university policy), the committee will work with the VC for further resolution. Tenure for faculty was initiated as a discussion and the focus was how changes in faculty status affects staff. President Wokeck requested that Sarah Koskie, the Chair of the IFC Faculty Affairs Committee, about defining the *practice of tenure*. Koskie said a subcommittee would be formed and this will be followed up in future FSRC meetings. Further discussions will involve non-IU staff supervising IU staff and how the issue of tenure is interrelated. With a new elected President of the IUPUI IFC, meetings will be scheduled after July 1, 2016 with her as Co-Chair.
